

Buller Electricity – Loss Factors

Applicable from 1st April 2025

BEL is required to publish appropriate Loss Factors to comply with industry regulations such as the Electricity Industry Participation Code, and the Retailer agreements we have with Electricity Retailers. Loss Factors account for the electricity losses which occur when electricity is conveyed across BEL's Distribution Network. These Loss Factors are used by the Reconciliation Manager in the process of settling the Electricity Market.

This document details Loss Factors applicable from 1st April 2025. BEL has calculated these Loss Factors with due regard to the Loss Factor Guidelines published by the Electricity Authority.

The Loss Codes and associated Loss Factors to be applied from 1st April 2025 remain unchanged from 2024/25 as detailed in Table 1.
